

NET CONTROL SCRIPT WA4MED *revision 3 10/07/2021*

CQ CQ this is **CALL SIGN** calling all WA4MED members for the weekly (*OR EMERGENCY NET*) net. WA4MED is a group dedicated to assisting the CSRA and surrounding areas during times of disaster and medical emergency. The purpose of this net is to provide training in the coordination of emergency radio traffic (*OR TO FACILITATE EMERGENCY COMMUNICATIONS*). All licensed HAM radio operators are welcome to participate in tonight's net (*DOES NOT APPLY TO EMERGENCY SITUATIONS*). Should an emergency arise during the net please contact net control, and we will then turn over the frequency or assist with the emergency.

At this time is there any emergency traffic?

With none heard we will proceed with the net. First we will start with short time check-ins. Short time check-ins are for operators wishing to check in only, and have no information that they would like to share (*ALSO SERVES AS A SAFETY CHECKIN DURING AN EVENT*). After short timers we will take regular time check-ins. Regular check-ins are for operators who have announcements or other related topics. Training topics will be presented during regular time. Also if you are new to net please let us know when you check-in.

(DURING EMERGENCY SITUATIONS THE TRAINING PORTION OF THE NET WILL BE SUSPENDED AND REPLACED WITH EMERGENCY SITUATION UPDATES AND OR OTHER RELATED INFORMATION).

This is **CALL SIGN** and it is **TIME**. At this time we will start short time check-ins. Please give your call sign slowly and phonetically followed by your location.

Net control would like to recognize the following short time stations.

Any other stations that were not acknowledged and would like to check-in for short time please call now.

Net control would like to recognize the following short time stations.

This is **CALL SIGN** and it is **TIME**. We will now be taking regular time check-ins. Please give your call sign slowly and phonetically followed by your location.

Net control would like to recognize the following regular time stations.

Any station that was not acknowledged that would like to check in as regular time please call now.

Net control would like to recognize the following regular time stations.

At this time are there any rechecks. (Rechecks are to provide opportunity for stations to change from short to regular time or to provide a situation update that occurred during an emergency situation.)

At this we will open our regular time. **CALL SIGN** please go ahead with your traffic. (Net control will now cycle through all stations who are regular time, allowing them to transmit.)

This is **CALL SIGN** and it is **TIME**. This is the end of regular time and we will move on to tonight's training topic presented by **CALL SIGN** (training topic to be short and to the point). I am now yielding back to net control **CALL SIGN**. **CALL SIGN** please go ahead.

At this time we will have on final call for late or missed check-ins.

This is **CALL SIGN** and it is **TIME**. This concludes tonight's WA4MED weekly net. We would like to thank all those who checked in with us tonight. If you would like to learn more about our club, you can find us on the web at WA4MED.us. At this time the frequency will return to normal amateur operation at **TIME**. 73.
